owner of Horolovar. Horolovar Co. was initially formed by Mr. Terwilliger and intended to devote it resources to the education, repair, and service of the 400-day or anniversary clock. The book is now in its tenth edition and was last printed in June 1991. The way this book works is it lists almost every production 400-day back plate.

The "Repair Guide" has undergone many changes/updates since it was first published in 1953 as the "Horolovar 400-Day Clock Suspension-Spring Guide", and is indispensable for 400-Day clock repair (or reference by any serious 400-Day clock collector), in that it has: a fairly exhaustive list of 400-Day clock (actual-size)

justifying the 400-day run-time claim. The ability for a relatively small spring barrel to power a clock for more than 400 days was remarkable. It must have been a compelling 'unique selling point' put forth by the manufacturer to market these clocks then they were first introduced in 1882. Several references to the 400-day run-
